

ENVIRONMENTAL POLICY

At Plus Fariones we are committed to implementing a work system that guarantees the protection and respect for the environment and the biodiversity / sustainability of the island of Lanzarote, as well as the optimal use of natural resources.

In order to achieve our target, we have defined our Environmental Policy providing the framework of our values and lines of action towards the preservation of the environment.

For this purpose, Plus Fariones hereby commits itself to:

Apply our philosophy of continued improvement to each of our processes in order to increase their environmental efficiency. To constantly evaluate the consumption levels of our hotel and its waste management process to maintain control of their impact on the environment.

To comply with the laws and regulations in force and applicable to the company as well as the requirements of social responsibility, safety and risks.

To involve all staff in the achievement of the proposed environmental targets through training programmes and internal awareness.

To make a rational use of resources minimizing water, energy and paper use; reducing waste generation through recycling and reuse policies.

To promote good environmental practices to our suppliers and customers.

Everyone that works at Plus Fariones is responsible for protecting the environment.
